

HERVOUIN Matthieu

PhD student in
computer science

<https://matthieuhervouin.github.io>

hervouinm@gmail.com

Education

2022-2025

PhD student at LAMSADE (supervised by Remzi Sanver)

2021-2022

Master at Université Paris Dauphine

2019-2020

Bachelor at ENS Lyon

2016

High school diploma (french baccalaureate)

Skills

Programming: Python, OCAML, C++,
LaTeX, html

Foreign languages: English (TOEIC score of 895), Spanish (B2 level)

Extra-Curricular

Service:

PhD representative in LAMSADE

Reviewer for THEO (Journal)

Co-organiser, LAMSADE spring school

Sports:

Rugby, Athleticism, Rock-climbing
and Calisthenics

Experience in research

2025	Reasearch visit Compromise rules in claims problem, hosted by Sinan Ertemel	ITU, Istanbul
2022-2025	PhD in Social Choice Advances in Classification Aggregation and Proportionality, supervised by Remzi Sanver, Ali Ozkes and Olivier Cailloux	LAMSADE
2024	Reasearch visit Online algorithms for Participatory Budgeting, hosted by Jan Maly	DBAI, TU Wien
Summer '22	Internship, Social choice Studing sybil maipulation in hedonic games, supervised by Jérôme Lang and Jorg Rothe	LAMSADE and Düsseldorf University
Summer '21	Internship, Social choice Online algorithms for multiwinner voting, supervised by Jérôme Lang and Piotr Skowron	LAMSADE and Warsaw University
June-July'19	Internship, Fair-division Dividing a discrete cake without assuming players prefer non-empty pieces, supervised by Frédéric Meunier	CERMICS, École des Ponts, France
2018	Student Project, Voting Modelling of an election for diverse social-choice mechanisms (Condorcet, Borda...). Evaluation of the "social-cost" for every rule.	Nantes, France

Publications

2022	IJCAI Online Approval Committee Elections.	Do, Hervouin, Lang, Skowron
2024	Mathematical Social Sciences Classification Aggregation without Unanimity.	Cailloux, Hervouin, Ozkes, Sanver

Working Papers

Online algorithms for Participatory Budgeting.	Hervouin, Maly
presented at SSCW24, COMSOC 25	Cailloux, Hervouin, Ozkes, Sanver
Anonymity and Neutrality in Classification Aggregation.	
presented at MPREF 25	Hervouin
Method of Equal Shares with dynamic affordability.	

Ongoing projects

Compromise rules in claims problem.	Ertemel, Hervouin, Ozkes, Koc
Irresolute Classification Aggregation.	Cailloux, Hervouin, Ozkes, Sanver
Multiwinner Voting with Trichotomous Ballots.	Bardal, Brill, Hervouin, Maly, Sanchez Fernandes

Teaching

2024	M1 Automats and computation	Université Paris Dauphine
2023-2024	L2 Algorithms and complexity	Université Paris Dauphine
2023	L1 VBA	Université Paris Dauphine
2022	M1 Decision under uncertainty	Université Paris Dauphine
